EDUCATION

Seaholm High School

High School Diploma — GPA: 4.0/4.0 UW — SAT: 1560

Birmingham, MI

Sep. 2022 – Present

- AP Statistics (5)
- AP Computer Science A (4)
- AP Computer Science Principles (5)
- AP Calculus BC (5)
- AP Chemistry (5)

Lawrence Technological University

Non-Degree Seeking Student — GPA: 4.0/4.0 UW

Southfield, MI

Aug. 2024 – Present

- MCS 2514: Computer Science II
- MCS 2513: Software Engineering I
- MCS 2523: Discrete Mathematics
- MCS 2403: Introduction to Data Science
- MCS 2534: Data Structures and Algorithms

EXPERIENCE

Wayne State University | Research Intern

January 2025 – Present

- Working under the guidance of professor Xingyu Zhou to conduct novel reinforcement learning research
- Developing and optimizing algorithms for multi-armed bandit problems using PyTorch and NumPy
- Performing large-scale experiments, processing over 500,000 simulation steps to benchmark RL processes
- Improved reward maximization by 15% through simplified exploration-exploitation strategies

EXTRACURRICULARS

Investing Club | President

June 2024 – Present

- Create slide show presentations to teach over 75 student members about fundamentals of investing
- Sponsored by Comerica and Huntington banks to use funds for development of club managed portfolio
- Oversee all meetings and activities such as guest speakers, competitions, games, and events

DECA | Chapter Vice President

Sept. 2023 – Present

- State champion and competed at the international level in Integrated Marketing Campaign Product category, winning a testing medal
- Help produce educational competition content for chapter members in the form of study guides
- Collaborate with other board members to host events and raise funds for charities

Highlander School Newspaper | Editor in Chief

Sept. 2024 – Present

- Oversee both print and media publications and editing of staff writer articles
- Manage WordPress hosted website and associated online advertising
- Use marketing and design methods to attract new members and grow club membership

Math Club | President

Sept. 2024 – Present

- Facilitate learning experiences of basic and advanced mathematical concepts for high school students
- Host participation of state and national math competitions such as Michigan Math League and AMC

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, HTML/CSS, LaTeX

Frameworks: React, Node.js, Material-UI, Firebase, PyTorch, TensorFlow

Developer Tools: VS Code, Visual Studio

Libraries: Pandas, NumPy, Scikit-Learn, Hugging Face

CERTIFICATIONS

Java: CertiPort Certifications in Java and Python (greater than or equal to 900/1000 score)

Machine Learning: Coursera certifications including Supervised Learning, Unsupervised Learning, and Advanced Learning Algorithms apart of Machine Learning Specialization
